No. 106.

NEW WAREHOUSE TO BE ERECTED

Cushing Brothers Permit to Construct \$24,000 Building—Work to Begin Immediately.

Permit for the erection of a building for warehouse and factory purposes was taken out by Cushing Bros., Co., Ltd., yesterday afternoon and this morning a gang of men were placed at work preparing the foundation of the new structure which will cost in the vicinity of \$24,000. It is anticipated that the new building will be completed and ready for occupancy by the end of August. The property on which the firm's present building is located was sold a short time ago and Cushing Bros. then purchased a new site for their factory in the west end of the city. The site of the new factory is excellently located for factory purposes and is directly connected by spur tracks with the Canadian Northern, Canadian Pacific and Grand Trunk Pacific railways.

TORONTO FIRM ASSIGNS.

Toronto, April 19.—The Wilkinson Portland Cement Co., Ltd., of Toronto, has assigned the assets of its company to a receiver, J. H. C. Jones, who has been appointed receiver of the company's assets. The assets will amount to nearly \$300,000, with liabilities about \$100,000. The receiver has been assigned the assets of the company by the court, and the receiver will be in charge of the company's affairs. The receiver will be in charge of the company's affairs. The receiver will be in charge of the company's affairs.

ADDITION TO STORE.

Toss-Bros., yesterday took out a permit for the erection of a \$5,000 addition to their store building on Jasper avenue. The new structure will be of brick and will increase their floor space by nearly one third.

AMBULANCE WILL RESPOND TO AN EMERGENCY CALL

POLICEMAN WHO STATED THAT IT WAS NECESSARY TO SECURE ORDER FROM MEDICAL MAN WAS IGNORANT OF REGULATIONS.

Chief Lauder, of the city department, this morning branded as pure fiction the statement made of late to the effect that the city ambulance would not respond to an emergency call except upon the advice and request of a medical practitioner.

"Such is not the case," said the chief. "We have always responded to emergency calls no matter who they were sent in by. Any citizen who telephoned this department and advised us that an ambulance was needed at a certain point for an emergency case was assured that his request will be complied with and the ambulance sent out as soon as it can get out of the station."

In a number of cases where it has been stated that the ambulance was not sent when requested it was due to the fact that it was not a emergency case while in other cases we were not advised that it was needed. The chief did not know who the policeman was who made the statement that the ambulance would not respond to a call unless it be sent to a certain point, but he said that he had been struck by a street car but not injured.

HOMESTEADS ARE NOT AVAILABLE

On the Great Estate, and Two Young Englishmen Are Disappointed.

Because they were not permitted to homestead on the Great Estate, one of Edmonton's new and fashionable residential districts, two young and enthusiastic Englishmen, "lost over," at the greatest disappointment of their lives the other day at the land office. Stepping off the train from the east, these two British youths, with all the assurance of young men, and with a bit of the spirit of the pioneer, had come to the city of the future, and they were disappointed. They would have liked to secure a homestead but they struck out for the time being. They were disappointed. They were disappointed. They were disappointed.

Picking out what they thought a desirable quarter section of land, having no idea of the size of a quarter section and not knowing the value of the land, and early next morning they were on the land office steps. In their disappointment and bewilderment, when they applied for their "quarter" (as the clerk, to be sure, was far from being available as homesteads, and that it would be necessary to betake themselves at least fifty miles from the city to get a real homestead.

INSURANCE RATES MAY BE BOOSTED IN HEART OF CITY

UNDERWRITERS INSIST UNLESS MUNICIPALITY TAKES STEPS TO REGULATE REPAIR OF BUILDINGS THEY WILL BE COMPELLED TO ACT.

While the city has in force a building bylaw which provides, among numerous other things, that no one shall be allowed to make repairs to a wooden structure within the first-class fire limits it is never-the-less true that a large number of wooden buildings are being repaired and the building inspectors and the city collector have no means by which they can compel the guilty parties to live up to the bylaw.

Some months ago a citizen who owns a block on Jasper was refused a permit to make certain alterations. He made the changes anyway and was promptly haled into the district court where the case was dismissed by the presiding judge who ruled that the bylaw was arbitrary and was defeating the ends for which it was intended. Since then several other cases have been taken before the police magistrates and in the majority of cases they have been dismissed. The last session of the Alberta legislature an amendment to the city charter was passed covering this very problem but to date the bylaw has been brought down with the result that the building inspector is powerless to prevent infringements of the present existing bylaw. It is the intention of the council to bring down a new building bylaw in the immediate future, one which the aldermen hope will hold water and will preclude the erection of any unsatisfactory structure within the first or second-class fire limits. At present, however, it is possible for a large number of wooden structures to be repaired, with the result that the life of each building will be prolonged for several years. This is the very thing which the bylaw passed in March 1909 was to avert. Copies of the bylaw were submitted to the board of underwriters before it was finally passed and the city was advised that if the bylaw was passed as amended and duly enforced, there was a reasonable probability that the insurance rates would be materially reduced, at least placing this city on the same footing as Calgary in that respect.

The bylaw has not been enforced, however, because the city officials had no authority, with the result that there have been a large number of flagrant violations, some of them even authorized by the council.

Interviewed yesterday a number of prominent insurance men advised the city that unless the bylaw is enforced in the immediate future to regulate the repair of buildings in the centre of the city there was danger that the insurance rate would be raised, which would mean an unnecessary outlay of thousands of dollars to the citizens located within the first and second-class limits.

The new building bylaw has been in process of formation for several months but as to when it will be brought down and finally passed none of the civic officials have very clear ideas. Meanwhile the old bylaw is being violated and any day may come the announcement of increased insurance rates.

EDUCATORS LISTEN TO MANY ABLE ADDRESSES

Mr. Blythe-Grey, Director Agricultural Education in England, Speaks.

SCIENTIFIC TRAINING URGED FOR FARMING

Superintendent McCaig of Edmonton Schools Points Out That Education Primarily Vocational—G. L. F. Lehmann Discusses Question in Paper.

A departure from the routine of the programme of the Alberta Education association was provided this morning when Mr. Blythe-Grey, a member of the Scottish Agricultural commission, which toured Canada a couple of years ago, and has just returned from a visit to Australia, delivered a brief address on agricultural education in Great Britain and in the Australasian states. Mr. Grey is director of agricultural education for the board of Education of Great Britain, and is now returning to England by way of the all rail route from Australia.

Agricultural education occupied the attention of the convention throughout the whole of the morning session. The subject was introduced by Supl. McCaig, of the Edmonton schools, who delivered an address in which he outlined the course which he would like to see pursued in carrying into effect any system of scientific education. (Continued on Page Five.)

PROOF IS NEEDED OF ATHABASCA MINERAL SAYS HON. OLIVER

RAILWAY TO PEACE RIVER MOST PRESSING NECESSITY NOW FOR DEVELOPMENT OF EDMONTON AS GREAT CITY OF THE FUTURE.

Demonstration is needed yet to prove the worth of the Athabasca country, so far as minerals are concerned. The matter of immediate importance to Edmonton is the development of the Peace river country. That is what Hon. Frank Oliver, minister of the interior, has been saying over 100 business men at his address at the Canadian Club at noon today.

Mr. Oliver spoke upon the resources of the Peace river country. He said that he had been on his trip last year through the north. This is the strain in which he spoke.

"I have always had my eyes turned towards the north upon the development of which Edmonton must depend for its greatness. I have always looked forward to seeing Edmonton the commercial capital of this great country. "Edmonton today controls the fate of the Peace river basin which is 1,600 miles long and 100 miles wide. It is the limit of our free land for settlers, unless we find some somewhere else. "I do not go north to look for tar sands, nor did I care whether there was coal, oil, or petroleum, but I was looking for new land which we could offer to settlers, with conditions as favorable as those in other sections of the west."

"I took careful note of vegetation and

SODERBERG WILL KNOW FATE TODAY

Court Considering Motion to Dismiss Charges Against Settler Man.

Settler, April 19.—On resuming court this morning, Tweedie for the defense announced that they were not putting in any evidence in the examination of Alex. Soderberg, charged with the murder of William Leanos. Some argument took place between counsel for the crown and defense as to who would have the last say in assigning the evidence. The presiding magistrate ruled the crown should be "at" and in support of his ruling he cited a precedent that he had found in a case which he had cited in a previous case. He said that he had found in a case which he had cited in a previous case. He said that he had found in a case which he had cited in a previous case.

"The proof of the worth of the tar sands and petroleum on the Athabasca is a matter of private enterprise. I hope the war will be more and better attempts than have been made in the past to demonstrate these minerals. There is no doubt that there are rich veins of oil and gas in the Athabasca. There are the prairies waiting only the touch of the settler to turn the soil into gold. My suggestion to the people of Edmonton is that they should turn their eyes towards this district. It is the nearest and most easily available land for the settlers. "A railway into the Peace is the most pressing need for the development of Edmonton as a great city."

Mr. Grant outlined the duties of Justices when sitting on preliminary hearings saying that it is not the duty of them to decide upon contradictory evidence. They take the place of a judge and jury.

The court room was crowded to the limit this morning to hear arguments in the case. There were reports of disappointment felt among the friends of Soderberg when he was learned.

(Continued on Page Five.)

TRAFFIC BRIDGE IS NEEDED IN CANYON

Matter Laid Before Hon. Frank Oliver Today by Peter V. Gunn.

To urge upon the minister of the interior the necessity and importance of a traffic bridge in connection with the C. N. B. bridge across the big Pembina canyon, 60 miles west of the city, Peter Gunn, M.P.P., for Lao, Sile, Anne, called upon Hon. Frank Oliver this morning, with one or two of his constituents.

The matter of this traffic bridge has been urged for some time by the farming interests, the coal mining interests and the lumbering interests of the banks of the Pembina at Entwistle. The Pembina canyon is one of the deepest in the west and it is almost impossible to cross without a detour of several miles.

The bridge would be built across the canyon, the matter of a traffic bridge was taken up, but never carried through. Now the C. N. B. are preparing plans for a bridge and it is desirable that a traffic bridge be erected with the new bridge.

Premier Sifton has already promised to see his influence with the C. N. B. to have the bridge built. The minister of the interior is being asked to do the same.

THIRTY HOMESTEADERS IN LINE.

Thirty entries for homesteads were taken up on the land office this morning, which, while not as big a record as yesterday, is a high average. The number will probably reach 60 before the month is over. The crowd at the land office this morning was almost as great as yesterday, many of the new settlers being after information, which will lead later to entries.

VALUE OF SPACE IN LIVE PAPER

Ducey & Co. Get Results From Advertising in Edmonton Daily Capital.

That the live real estate firm of Ducey & Co. appreciate the value of a live newspaper is evident from the fact that they have been doing some advertising in the Edmonton Daily Capital and getting good results. A number of their recent sales are due to the publicity given in this paper and they frankly state so.

Ducey & Co. reports considerable activity in the live real estate market. The firm sold 66 feet south of the Boulevard for \$250 per foot, one of the best lots in the city. The lot was sold for \$125 per foot, also several lots south of the Boulevard from \$2,700 to \$3,000. The firm has also accepted a deposit for an option on 209 feet facing Napanee avenue and 81 feet facing the Boulevard, from a Toronto firm. The purchase price is \$15,000, and it is expected the deal will be closed in a short time.

MUSHROOM WINS RACE.

On the 19th of April, the city and a quarter, was won today by the Mushroom, a horse from a Toronto stable, owned by J. H. King's. The Mushroom, 5 to 1, was a cinder, and was something more. When the girl did not take the race twice and was placed on several occasions. Other also ran were Mustapha, Dalmatian, Greenback, Lenuan, Laydon, William Bell, Abatis, Avenue, St. Felice, Diamond Stud, Abeldard Second, and Knight of Honour.

SENATOR EDWARDS PLACES HIS O.K. ON RECIPROCITY

SAYS IT IS BEST THING CANADA CAN GET—TALK OF TRUSTS GAINING ADVANTAGE IS ALL FALLACY, HE SAYS.

Senator Edwards, one of the largest lumber dealers in Canada, and an enthusiast for reciprocity, is a visitor to Edmonton today, together with F. A. Jones, general manager of the Canada Cement Co. They are guests at the King Edward. To a Capital reporter this morning Senator Edwards gave his views on reciprocity.

"I think it is the greatest thing that Canada can get. I don't see how anyone can object to this. This agreement that the trusts will be able to get a hold on Canadian products through the new arrangements is all the most foolish talk imaginable."

It is only an excuse for the Conservatives for their change of front. They have got to have some excuse for opposing this.

Respectfully will make more prosperity in the west, and what is good for the west means prosperity also for the east.

"I think, though, that the farmers are making a mistake in demanding a greater reduction on agricultural imports."

Everybody uses tinware, the farmers not the least of them."

Senator Edwards and Mr. Jones are making a trip through the west, which Senator Edwards has not yet seen. He has never seen west of Winnipeg, and Jones is making an inspection trip of the branches of the Canada Cement Co. in the west.

Mr. Edwards does not express an opinion on reciprocity. He prefers not to be quoted on this great topic of the day. They are both in the west at present, and they are both in the west at present.

HORSE AND CATTLE SHOW NEXT WEEK

Members of the Alberta Provincial Stock Breeders' Association Make Arrangements.

For the purpose of making arrangements for the horse and cattle show which is to be held April 26 and 27th, the members of the Alberta provincial stock breeders' association, under whose auspices the show is being held, visited the exhibition grounds yesterday afternoon.

The first stock show promises to be a success. There are nearly 100 entries of animals, and there are a large number of stock men coming for the show.

BOARD OF TRADE GOES ON RECORD

Adopts Resolution—Almost Unanimous Vote Opposing Negro Immigration.

That negro immigration is deterring white settlers from south of the line from settling in Alberta, and that steps should immediately be taken to prevent the influx of colored people from the States, was the subject of a resolution of the board of trade passed yesterday afternoon at a special meeting. The resolution was adopted by a vote of 10 to 2. The members of the board of trade who voted in favor of the resolution were: Mr. Fisher, Mr. Jones, Mr. Leanos, Mr. Soderberg, Mr. Wilson, Mr. Leanos, Mr. Soderberg, Mr. Wilson, Mr. Leanos, Mr. Soderberg, Mr. Wilson.

CLUB WOMEN AT MEMPHIS

Memphis, Tenn., April 19.—The streets of Memphis were thronged today with visiting club women from all parts of the country, and the arrival of each train added to the number already in the city. This distinguished gathering of women, of whom several hundred are expected as accredited delegates, will possibly linger as many friends, is here for the council meeting of the General Federation of Women's Clubs, which will be in session during the greater part of the week. The attendance includes the members of the board of directors and officers of the several federations, together with the presidents and secretaries of the state organizations. The sessions of the meeting, devoted to the discussion of various matters of business relating to the federation, will be interspersed with numerous features of social entertainment arranged by the Memphis club women. A notable feature of the programme will be an address by Edward J. Ward of the University of Wisconsin, who will tell of the work that is being done in the development of schools as social centres.

NATIONAL ACADEMY OF SCIENCE

Washington, D.C., April 19.—With a socially representative membership in attendance, the annual meeting of the National Academy of Sciences opened at the Smithsonian Institution here yesterday. It will continue over tomorrow. The academy is classed as one of the most famous scientific bodies in the world, and membership to it is one of the great honors of the world that can come to a scientific man, who must have first distinguished himself in an eminent degree in his special line of work.

CAROLINA BANKERS IN SESSION

Summersville, S.C., April 19.—With Secretary of the Treasury MacVeach heading the list of speakers, the South Carolina Bankers' Association today began what promises to be the most successful meeting in its history. The sessions are being held at the Pine Forest Inn, and will continue for three days. In addition to Mr. MacVeach the scheduled speakers included a number of the leading bankers and financiers of South Carolina and neighboring states.

SLAYER PLEADS SELF-DEFENSE

Marysville, Me., April 19.—The case of E. J. Watson, who is charged with the murder of James F. Bury in a Marysville apartment house two months ago, was called for trial today at the court. Watson stood through the trial, and Mrs. Bury was in a room occupied by Mrs. Bury when the Watson's husband attempted to break in the door. Watson shot through the door with fatal results. He declares he acted in self-defense, believing Bury armed.

ONTARIO TEACHER'S JUBILEE

Toronto, Ont., April 19.—The members of the Ontario Educational Association are celebrating the golden jubilee of their organization with a largely attended convention at the University of Toronto. The proceedings began yesterday and continue over today and tomorrow. Two educators of international reputation head the list of speakers at the convention. They are Dr. George A. Auden, of Birmingham, England, and Dr. A. Ross Hill, president of the University of Missouri.

For Catarrh

Medicine Free in Every Case Where It Fails to Relieve.

Neglect or pessimism, we believe, is the greatest enemy the public has to contend with when applied to the loss or recovery of health. Practically every case of consumption might have been cured if hope had been maintained, and proper treatment had been resorted to at the first symptom of the disease. Until the advanced stage of the disease is reached, Catarrh is responsible, we believe, for many cases of consumption. It is about catarrh we want to talk to you today, incidentally consumption, since the two are so closely allied.

We have a medicine made from a prescription of one of the most successful catarrh specialists known. We believe it is positively without an equal. We are so satisfied that we are right, that we will supply the medicine free in every instance where it is used according to directions for a reasonable length of time, should it fail to give satisfaction in every particular. We want every one to try this medicine at our risk. There are no conditions attached to our offer. We put the user under no obligation to us whatever.

The medicine we want you to try is Bexal Mono-Tone. It is a catarrh remedy that goes directly to the seat of trouble. It is carried by the blood to every part of the system. It purifies and enriches the blood, tones up the nervous cells, and brings about a condition of health and strength that tends to prevent the return of catarrh from retreating a start. Besides this Bexal Mono-Tone is a wonderful appetizer, digestive aid and flesh builder. Its good effects are often felt from the very first dose. It is one of the largest and most satisfactory selling medicines that have ever had anything to do with.

We know so much of the great good that it has done that we personally back it up with our reputation and money, which fact should be ample guarantee to satisfy anybody. Bexal Mono-Tone comes in two sizes, 50 cents and \$1.00. We urge you to try it. Remember, you can obtain Bexal Mono-Tone in Edmonton only at our store—The Rexall Store, A. Archibald.

COUNCIL REFERS PARSONS REPORT TO COMMISSIONERS

ALSO ASKED TO ADVISE COUNCIL AS TO TYPE OF POWER MACHINERY WHICH THEY INTEND TO PURCHASE — UTILITIES COMMISSIONER AVERS THAT AGREEMENT WITH GAS COMPANY DOES NOT SAFEGUARD CITY—REPORT IS FILED.

At the council meeting last evening, after a lengthy debate, a resolution was passed referring Engineer Parsons' report on the class of power machinery which the city should purchase and the manner in which the power house should be laid out, to the city commissioners for a report with whatever suggestions they might have to make.

At the outset Mayor Armstrong stated that he personally knew about nothing about machinery and thought that he could say the same for Commissioner Bouldin, therefore leaving only Commissioner Bouldin to report on the question.

Alderman Hyndman considered that the commissioners should say the type of machinery which they considered should be purchased and with this coupled with the experts' advice the council could arrive at a decision whether or not they should vote the money.

Ald. McKimley considered that the aldermen had made too many mistakes and that the commissioners should be given a chance to show what they could do. The commissioners were the ones who should have employed the expert.

Ald. McKimley: "Well, why didn't they have sense enough to do it? What the commissioners are trying to do is to force everyone to take their advice and go on else's. Ninety per cent of the machinery which has been purchased has been on the recommendation of the commissioners, even the gas plant."

Each alderman and the mayor contributed some desultory remarks after which the resolution mentioned above was passed and the city commissioners will be expected to bring in a report at the council meeting next Tuesday evening.

Agreement Unsatisfactory

Commissioner Bouldin submitted a report in which he stated that the proposed agreement with the International Heating and Lighting Company was not satisfactory in that it did not sufficiently safeguard the city. It was too vague and indefinite. Aside from this the commissioner did not state what his reasons were.

Alderman Lundy stated that the by-law had been prepared by the city solicitor from a report submitted by Commissioner Bouldin, the old agreement with the industrial committee moved that the commissioner's report be filed, which was carried; Ald. Lundy, Messrs. Miller and Grindley voting for the motion and Ald. Hyndman, McKimley and McKimley against. Later in the evening when the by-law came up for consideration it was read a first and second time and then as it could not be finally passed without the unanimous consent of the council, it was laid on the table until the next regular meeting while in the interval the commissioner will be given an opportunity to state what his reasons are for opposing the agreement.

The commissioners asked permission to have Griesbach street graded from Kingston to Suburban. Granted.

Communications

Robert Tegler wrote the council against being restricted to the construction of a four foot light area in

FREIGHT RATE INQUIRY

Washington, D.C., April 19.—The annual meeting of the Interstate Commerce Commission to-day began the taking of testimony in the investigation of rates on import traffic, westbound from the ports of Boston, New York, Philadelphia and Baltimore. The purpose of the investigation is to adjust the rate differences which have existed for a long time among the ports.

NEW HAMPSHIRE G. A. R.

Concord, N.H., April 19.—The annual encampment of the New Hampshire department, G.A.R., and the annual meetings of the Women's Relief Corps and the Sons and Daughters of Veterans opened here to-day and will continue through Thursday. The encampment is honored this year by the presence of Commander-in-Chief John E. Gilman and the members of his staff.

WEDDING IN BRITISH COLUMBIA

Sumnerland, B.C., April 19.—A wedding of note here to-day was that of Miss Vida Lois Cartwright, daughter of Colonel and Mrs. Robert Cartwright, and granddaughter of Sir Herbert Cartwright and Lady Cartwright, and Mr. Otto Zimmerman, formerly of Hamilton, Ont., but now a resident of this place.

Something Wrong About the Ambulance Arrangement

There is something wrong about this ambulance arrangement. On Monday evening a man was injured on the hill near the High Level bridge when a policeman arrived to inform him that the ambulance could not be called until the order of a medical practitioner had been secured. The policeman had his orders. The injured man had to be brought up town on a street car. He might have died, but the regulations remained intact.

The arrangement looks almost as foolish as the case of the bather who was found calling for help in the middle of the mill pond and who when hauled out and questioned how he got there if he could not swim, spluttered that he could swim all right enough, but he had not noticed the sign until he got beyond his depth. The sign said: "No Swimming Here."

Mixed Pressures, High Pressures And Mr. Bouillon

Mr. Bouillon is not long back from Seattle until he issues another defi to the council. This time Mr. Bouillon says, in effect that all the advice of mechanical superintendents and experts is nothing to him, that in fact he has not taken the trouble to read the report of the last one, and that he will spend the city's money on whatever kind of machinery he chooses, the council and all the mechanical experts to the contrary notwithstanding.

To those unacquainted with the mechanical end of the game the expressions "mixed turbines," "high-pressure turbines," "Bellis-Morcoms" and all the rest of it are Greek, or worse, but there is one thing very plain and that is that Mr. Bouillon specifically desires to disagree with everyone in his neighborhood, and that a superintendent at the power plant is good for just about as long as he fails to have any idea about machinery which is not in line with Mr. Bouillon's pet theory of mixed-pressure turbines, vide the case of Deerwester.

The city has had one experience in accepting the advice of a theoretical engineer against a mechanical man in the case of the gas producer, and the experience has cost a quarter of a million dollars.

Considering that the entire mechanical faculty and all the experts who have been called in have declared that Mr. Bouillon is wrong on this machinery question, it looks as though the city council would be wise to keep its hand on the money, at least until Justice Stuart's decision comes down, informing us whether Bouillon is an inflection which we will have with us always.

An Interview for The Toronto News On Protection

Toronto is just discovering that it has a slum district where filth is piled up in the back yards in heaps, where the sunshine is shut out of the homes of the inmates and where the children play in the grime and the dirt of the gutters within hailing distance of the city hall.

A crusade is being carried on by the newspapers to have the slums cleared out and more sanitary conditions inaugurated.

This crusade is led by the Toronto News, the paper which is putting up the most strenuous fight of any paper in Canada against reciprocity.

The News bases its anti-reciprocity fight on the ground that free trade would kill the infant industries of Canada.

How would it do for the News to go down into the slums to some of those people down there whose infants are struggling for light and air, and interview them on what protection has done for Canada?

JUST PARAGRAPHS

Speaking about contempt of court, what category would Mr. Bouillon come under when he continues the fight while the court considers whether he is really the commissioner he claims to be or just a Seattleite with a desire for spectacular effects.

While Frank Oliver was getting himself interviewed by the Bulletin he should have remembered to interject a few expletives about the changes that have taken place since he left Edmonton—said changes mostly in Oliver.

Down in Calgary they have to place policemen on the corners to keep the autos from running into the street cars. That's what comes of trying to build a town with streets so narrow that you have to step onto a vacant lot to change your mind.

This is the time of the year when the man who knows the baseball stars has it over the scholastic guy whose knowledge of stars is limited to the nebular hypothesis.

It is all right for Jim Cornwall to spend a part of his winter down east telling them of the glories of the last best west, but who'd a hunk he'd put in a wireless so he could shoot the dope at them all summer too.

"THIS DATE IN HISTORY"

April 19
 1775—Battle of Lexington, first engagement in the American Revolutionary War.
 1791—The Schuykill and Susquehanna Canal Company, in America, was chartered in Philadelphia.
 1813—Benjamin Rush, physician-general in the American army, died in Philadelphia. Born in Byberry, Pa., Dec. 24, 1745.
 1821—Lord Byron, the poet, died in Greece. Born in London, January 22, 1788.
 1856—The Clayton-Bulwer treaty signed.
 1858—The planet Atlanta discovered by H. Goldschmidt.
 1861—The ports of the seceding states were proclaimed to be under blockade.
 1881—Benjamin Disraeli (Lord Beaconsfield), English statesman and novelist, died. Born December 21, 1804.
 1882—Charles Darwin, author of "The Descent of Man," died. Born February 12, 1809.
 1891—South Carolina supreme court declared the state dispensary law to be unconstitutional.
 1903—Great massacre of Jews at Kishineff, Russia.
 1910—United States Senators Aldrich of Rhode Island and Hale of Maine, announced that they would not be candidates for re-election.

"THIS IS MY BIRTHDAY."

Gardiner G. Hubbard
 Gardiner G. Hubbard, aviator, airplane designer and manufacturer, was born in Boston, April 19, 1878, the son of Charles H. Hubbard, a Boston attorney. After graduating from Harvard University in 1900 he became a sugar planter in the Hawaiian Islands and then spent a year in a trip around the world. After completing his travels Mr. Hubbard spent three years in the study of architecture in Paris, and practised his profession in New York for two years until 1909. Becoming interested in aviation he went to Baddeck, Nova Scotia, to study with Professor Alexander Graham Bell, the inventor of the telephone and exponent of tetrahedral kites. At Baddeck the young aviator designed and built an aeroplane with which he made successful flights. Later he took part in aviation exhibitions in various parts of the United States and Canada and then entered upon the business of manufacturing aeroplanes for general use.

EDMONTON AT POLITICS

(Calgary News-Telegram)
 There is only one place in Alberta where they indulge in politics. That is at Edmonton politics is the national game. There are two parties in the game, the Cross party and the Oliver party. The Oliver party used to have the support of the Cross party, and things were lovely, and then it appears, the Oliver backers tried to destroy the strength of the Cross contingent and used the A. & G. W. as the club with which to do it. Everything has been so quiet on the Saskatchewan front for so long that almost thought there had been a funeral, but all of a sudden, on the approach of Mr. Oliver, the long silence is broken and the Minister of the Interior is "without honor in his own country."
 If there is a general election it will doubtless find Hon. Mr. Cross contesting the Oliver riding, and we have no doubt of the outcome. Calgary is not greatly interested. It is true that Mr. Oliver has, with the exception of the Fort McMurray road, pulled and hauled for Edmonton for ever and ever, as against Calgary, but Mr. Cross would do the same just as stoutly.
 Since Mr. Oliver opposed the A. & G. W. deal, which Mr. Cross defended, that topic will doubtless figure in the campaign, in view of which it is probably up to Mr. Oliver to do what he can to get the \$7,000,000 law suit settled so as to be able to convince people that the fix his opposition put us into is not worse than the fix he got us out of.
 It is impossible to conceive of Edmonton ever voting for anyone but Cross. Say what you please of the deal, it would have been far better to have let it go through, properly amended, as Mr. Clarke was willing to amend it. As things are, however, it will be able to tell Alberta what it got the use of the money, and every day draws us nearer to the time when the Alibabas will be tipped from the south east and Alberta's six hundred miles north and south trunk line railway broken off at two-thirds its length.

BIG CATHEDRAL DESTROYED
 New York, April 19.—Many distinguished men and eminent representatives of nearly all religious denominations joined to-day with the clergy and laity of the Episcopal church in dedicating the two completed chapters of the Cathedral of St. John the Divine, the great granite pile rising on Morristown Heights that has long attracted the attention of all visitors to New York. The ecclesiastical procession which was a feature of the dedication was the most imposing ever seen in the metropolis.
 One of the finished chapels dedicated and opened to the public is a gift of August Belmont in memory of his first wife. The other is in memory of Miss Mary King, a gift from her father. Today's exercises also included the dedication of the choir loft and the organ, which is the largest in America. The cathedral itself has been building for nearly nineteen years, and in it between \$3,000,000 and \$4,000,000 have been spent thus far. It is estimated that about thirty years will be required to complete it and the additional expenditure will probably exceed \$10,000,000. It is to be the largest and costliest church edifice in the western world.
 Not many years ago George Franklin Haley, who has just been appointed a justice of the supreme judicial court of Maine, was employed at a small pay in a saw mill.

SOUTHERN EDUCATIONAL CONGRESS

Jacksonville, Fla., April 18.—The rededication of education for rural communities was the general subject of discussion this morning at the opening session of the fourteenth annual conference for Education in the South. Governor Gilchrist, Mayor Jordan and others welcomed the visitors, among whom were noted educators and public men from many sections of the country.
 The papers and addresses presented at the initial session included the following: "The Adaptation of Education to Rural Life in Denmark," Maurice P. Egan, United States minister to Denmark; "The Adaptation of Education to Life in Switzerland," Dr. Paul Ritter, Swiss minister to the United States; "The Reconstruction of the One-Room Rural School," Miss Jessie Fields, superintendent of schools of Page County, Iowa.

EDUCATORS LISTEN TO MANY ABLE ADDRESSES

(Continued from page 1)

ation in agriculture. Mr. McCaig declared that the aim and purpose of the education given in the schools was primarily vocational. "The idea and purpose of all our education is vocational," he declared. "The high school course must be designed as a 'vocational' course, in that it prepared students for the professions in which cultural requirements were essential. It was now proposed to add to the curriculum 'industrial vocational' education. The beginnings of agricultural education must be in the public school. Geography and nature study formed the basis of this applied science. In a secondary school the school subject of scientific agriculture should be taken up, two courses being provided—one for the students who desired to take up agricultural teaching, and for students who wished to obtain training for practical application on the farm. Higher scientific education should be taken up in the university.

"Agricultural education in Alberta exists in a precarious condition," declared Mr. McCaig. The demonstration farms, for the use of practical farmers were "agricultural repair shops" only. The peddler with his kit of tools was to the latest modern manufacturing concerns as demonstration farm work to agricultural education as it should be. Mr. McCaig was appreciative of the work that might be done by the demonstration farms, he did not wish to deal with the subject in any political sense, but was convinced that vast strides must be taken before education in agriculture in this province could be placed on a proper scientific basis.

As to the teaching of the principles of farming in the elementary schools, to this Mr. McCaig was absolutely opposed. "You have no more right to make a boy a farmer at the public school than you have to make a blacksmith of him," he declared.

"Agricultural education in the secondary schools" was the subject of a paper by A. L. F. Lehmann, B.S.A., M. A., Ph.D., and at the close of the discussion on the questions raised in the morning papers, the convention was adjourned. This afternoon's programme consists principally of committee work.

Evening Session.

That until the taxpayers of the province can be convinced that they cannot obtain the value of their money invested in educational ends until they double the salaries of teachers, the problems of education in Alberta will remain unsolved, was the opinion expressed by Dr. Torg, president of the University of Alberta, in the course of an address before the Alberta Educational association in the high school auditorium last evening.

The hall was filled to overflowing. Dr. Torg delivered an address on "Some Present Day Problems in Education," in an address of considerable length, emphasizing the importance of the financial side of this question. He declared that the payment of higher salaries to teachers is a reform of necessity for which the ratepayers must be persuaded, and that until this reform is carried out there can be no approach to a settlement of the many difficulties with which the educational authorities are confronted.

Dr. Torg dwelt upon the problems of education in their many aspects. He referred to the education of industrial problems in the solution of which it must needs play an important part. So far as the present state of education is based on human utility, he declared, no system is available, but the system of the future must be evolved from the experiments of the present, and based on the knowledge obtained through past experience. It should be the duty of the educationalist to find a correlation of subjects for the course of study in the schools, with a view to saving time and still missing nothing of real value.

On the platform at the meeting last evening were Acting-President W. A. Hamilton, N.W. A.S.A., former president of the association; Dr. T. D. McKeen, deputy minister of education; J. A. P. Fraser, inspector of schools for the Edmonton school district; J. A. McCaig, superintendent of the school in Edmonton; and P. B. Hutchart, chairman of the Edmonton school board.

The musical portion of the programme at last evening's concert was contributed by Miss E. Blaisdell, piano solo; E. Butterworth, vocal solo; W. Laidlaw, reading; Miss Hux, reading.

BOARD OF TRADE GOES ON RECORD

(Continued from page 4)

meeting. It was proposed by H. G. Watson that enquiry should be made as to whether there is any organization in the States assisting emigration to Canada, and declared that unless the present influx of colored people ceased into Canada, and make their homes here, J. D. Ryan suggested that the Dominion government should take away honest rights from colored people coming to Canada. He thought this course should be taken, and that the necessity for it should be impressed upon the authorities at Ottawa.

"The question is whether Alberta is to be a white man's country or a black man's country," said W. H. Clark, an exhortation to the present state of colored immigration. "Geo. B. Fraser declared his experience was that the negroes were an indigestible quantity in social circles everywhere.

T. Hinde, who was one of the dissenters, made a plea for British fair play, expressing the view that the negro should not be excluded, but should be provided an opportunity to make good here, and to prove himself a desirable citizen. Milton Martin was also among the minority, declaring that Canada could not exclude negroes, and that the States could not exclude British Hindus.

SODERBERG IS HELD FOR TRIAL

(Continued from page 1)

ed that no evidence would be put in for him.

Court adjourned at 10.30 for half an hour to decide. Justices Mitchell and Gray after being in consultation for 10 minutes announced that the court would be adjourned until 5 o'clock today as there were some facts that they wanted to go into.

It is a matter that is puzzling the people of the town whether the justices will see their way clear to send Alex. Soderberg to jail for his trial next month. Some say he is almost sure to be sent up while others believe that they don't believe the evidence strong enough to justify such action. The handsome young rancher remains cool and self-possessed and presents the appearance of anything but a man guilty of the revolting crime with which he is charged.

Stettler, April 19.—The crown concluded the introduction of evidence for their side in the examining trial of Alex. Soderberg charged with the murder of Wm. Lemox at 4 o'clock yesterday afternoon. It is the opinion of practically every one that the crown have utterly failed to prove their case and that the evidence is entirely insufficient to send the accused up for the assizes at Red Deer. The court room has been crowded to the doors all day and a sick of relief passed up from the spectators when it was announced that the prosecution had finished their case. Only two witnesses were examined at the sitting. Sergeant Ashe of the R. N. W. M. P. force at Lethbridge, who has been acting as a plain clothes man on the case since the 29th of March and was kept on the stand all day with the exception of the short time Mrs. Filiatrault was giving her testimony.

Tweddle subjected Ashe to a continual bombardment of questions relative to the horse tracks, the trail he followed and his visit to Soderberg's place.

After the big lawyer from Calgary got through with witness the trail and hoof prints looked very uncertain. Ashe admitted that when he visited Soderberg's house that neither he nor any of his family refused to give him any information asked. They made an attempt to hold back anything new did they hesitate to answer any questions asked. When he asked about the gun and the coat, the boots or the horse, it was always the same straightforward answers. He took Soderberg's wife in a room and questioned her alone, she told him that Alex. started to town at 8.30 and that his brother, Peter, was home all evening playing cards.

"Do you know that this gun was used since the time of the murder?" "I fired it myself yesterday," said Ashe.

Tweddle gave the witness a scathing rebuke as a member of the R. N. W. M. P. for taking the liberty of using an exhibit of the court. He admitted he had no direct permission to do so.

Witnesses took the hall fire and the one found in Lemox shack and compared them. He could not be shaken from the opinion that the balls were similar.

The evidence of Mrs. Filiatrault, wife of one of the chief witnesses for the crown, was largely in confirmation of that of her husband. She was not positive about the time Ullman came in, but thought it was about 9.20. She too said "the clock with a little fast," and would not admit the clock ever ran slow.

Proceedings Yesterday

Soderberg continued cool and self-possessed when Ashe was giving his evidence yesterday, as he has during the entire trial. The witness was shown the bullet with which Lemox was supposed to have been shot. He was not sure whether the bullet was fired from a 30-30 rifle, but thought so.

Tweddle in his cross-examination of the witness was a most searching one. He had him draw a map showing thoroughly which he arrived at Lemox's place on the morning of March 29, also showing the location of the different buildings the shack was Grant frequently interrupted Tweddle, to which Tweddle replied finally that if he (Grant) understood fairly evidence given by the witness he would cross-examine him.

Tweddle emphasized the fact that Ashe was a detective on the case and criticized him for not knowing about other trails, and particularly about the place. He did not measure the bullet hole. His examination of the house was very meagre. He had the crime report before him and went straight to the tree and started from there.

Mr. Tweddle became exasperated at Grant for his repeated interruption and stated very plainly that he was going to cross-examine the witness as much as he pleased, as Ashe was the man who went around town telling the people he had all sorts of damning evidence against Soderberg. He did not make any measurements of the horse tracks at the tree, the first memorandum made was about 20 yards from the tree going in the direction of the slough where numerous horse tracks crossed.

MULLIN AND RYAN WORK OUT AT THE Y. M. C. A.

TWO OF THE BOXERS AT FRIDAY NIGHT'S INITIAL SMOKER OF THE EDMONTON AMATEUR ATHLETIC CLUB AT THE LYCEUM THEATRE ARE EXTENDED COURTESIES OF THE POPULAR INSTITUTION.

Barney Mullin and Mickey Ryan, respectively physical director and assistant for the Edmonton Amateur Athletic club, who are to meet Jimmy Williams and Jack Kay for ten rounds each at the Lyceum theatre Friday night, are putting the finishing touches to their training this week in the spacious gymnasium of the Y. M. C. A. Having learned that the complete gym paraphernalia of the club had not been received as yet, Secretary Ward and Physical Director Valentine, of the Y. M. C. A., generously granted the use of their gym.

"Edmonton can well be proud of its Y. M. C. A.," declared Barney Mullin. "The courtesy of many institutions have been extended to me in my day for training for exhibitions, and I can truthfully say this is one of the finest I ever had the pleasure of working in."

Mullin will wind-up his work tonight, and will content himself with a little run tomorrow morning. Ryan, on the other hand, feels that the extra work will do him good, and he intends keeping it up to tomorrow night, and will be satisfied with a rest on the day of the smoker.

Williams enjoyed a good rest yesterday and will work today as a finish. Kay has been taking it easy because he was in such good shape when he reached Edmonton that he did not feel like taking any chance of injuring himself.

The applications for membership in the club have been coming in briskly, and it is no exaggeration to state at this time that the organization will start out with a large list and one that goes a long ways towards showing that Edmonton was in need of an organization such as this one is to be.

The applications are on file at Deacon's cigar store, the Olympic bowling alley, the Palm cigar store and the Yale hotel cigar stand.

So as to insure every member having an opportunity of being in attendance at the first smoker, the first exhibition will not be called by the master of ceremonies until 10 o'clock on the night of Friday, following the first show at the Lyceum theatre. The first show will be through in time for the members to be admitted at 9:30 and immediately seated.

Charlie Satter, a well-known local boxer, and himself a hard customer with the muffs, has been working with Jimmy Williams and declares the Vancouver lad is in excellent shape.

Membership applications were yesterday placed in the Senate Hotel.

PRE-SEASON MAJOR LEAGUE SERIES.

Athletics vs. Quakers.	With Loss

CALLIES IN ANGER DROP FROM LEAGUE

NEITHER TEAM IS TO PLAY IN EDMONTON FOOTBALL LEAGUE THIS YEAR AS RESULT.

Pinned because of the refusal of the Edmonton Football League to allow senior teams of the Callies to play this season, the Callies have dropped from the league. The annual meeting last night the Callies would have been allowed to play in the league, but the league refused to allow them to play in the league.

The senior league will consist of seven clubs, as follows:

St. George's A. team, Callies A. team, Y. M. C. A. team, Strathcona A. team, Strathcona B. team, Strathcona C. team, Strathcona D. team.

The following days have been set aside for games:

Intermediate League—Mondays, Wednesdays and Fridays.

Senior League—Tuesdays and Thursdays.

The senior schedule will not be drawn up until after the western Canada league schedule is drawn up at the time of the making arrangements for the use of the Edmonton Park, which the Callies are on the road.

Intermediate League Schedule.

May 2—St. George's vs. Strathcona.

May 9—St. George's vs. Strathcona.

May 16—St. George's vs. Strathcona.

May 23—St. George's vs. Strathcona.

May 30—St. George's vs. Strathcona.

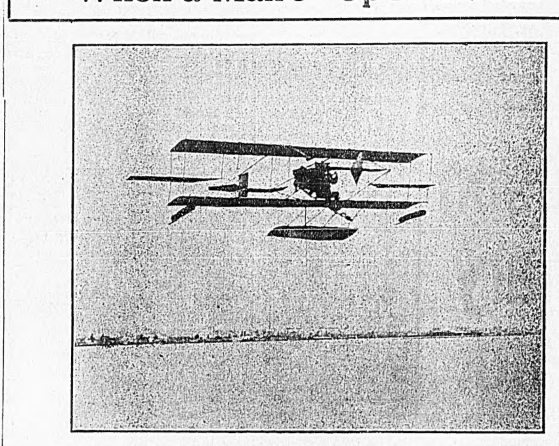

June 6—St. George's vs. Strathcona.

June 13—St. George's vs. Strathcona.

June 20—St. George's vs. Strathcona.

June 27—St. George's vs. Strathcona.

When a Man's "Up in the Air"

Bob St. Henry, the Curtiss aviator, in one of his great flights last summer at San Diego, Cal. St. Henry is now in Edmonton and will give exhibitions in this city the latter part of this month.

TWO BILLIARD WONDERS TO TOUR CANADA

GEORGE GRAY, THE AUSTRALIAN BOY WONDER, AND JOHN ROBERTS, COMING.

George Gray, the Australian boy wonder, who has astonished the sporting world by his remarkable performance in billiards, where he has completely overthrown the world's champions, will shortly start for Canada and the United States, accompanied by John Roberts, the boy and the veteran will give exhibitions in the large cities, and undoubtedly a tour will be made from coast to coast, and bring him back from Europe. Mr. Gordon is the owner of the billiard table, which has been a great success in the last four years. His great promise as a stock horse, which A. H. Gordon last year to try to buy him and bring him back from Europe. Mr. Gordon is the owner of the billiard table, which has been a great success in the last four years. His great promise as a stock horse, which A. H. Gordon last year to try to buy him and bring him back from Europe. REAL ESTATE BULLETIN

In business property, demand is for Jasper and Namayo Avenues, where transactions have taken place and further deals are pending.

In residential, there is little change, the usual subdivisions being in steady request.

In houses, the West End, as usual, has precedence in public estimation and the demand shows no sign of weakening.

We are maintaining our list in good shape and can meet any ordinary requirement.

ALBERTA PARK

The weather being fine and roads good, we are showing this daily to interested parties, who are buying freely.

The value is the best offering in this line and the property commends itself to all who see it.

We want an opportunity to show it to you.

Phone 1850 and arrange this.

MUSICIANS HOLD ANNUAL BANQUET

The first annual banquet of the Edmonton Musicians association was held in the Royal George hotel last evening, with Vernon Barford, president of the association, in the chair. The orchestra of the Empire, Bijou theatres, Turner's and a specially selected one, presented music during the evening.

Mr. Barford, responding to the toast of the association, said that it was to be considered not so much as a union, but as a body of musicians banded together for the benefit of their fellows, and the advancement of music. He hoped the music played at the moving picture theatres would see an improvement.

Other toasts were responded to. The association, which was organized in 1907, is now gaining rapidly in strength.

Medals, Trophies, made to order. Jack and Bros.

NEWS OF THE CITY

The regular rehearsal of the festival chorus will be held this evening in the old Methodist church.

The Old Reliable Mechanical Construction company will open new offices in the Hanna block, on First Street, Thursday or Friday.

Aside from general routine business nothing of importance will be taken up at the commissioners' meeting this afternoon.

The Wednesday evening meeting of McConchall church congregation will be held at the W. M. S. Rev. Mr. Henson will deliver an illustrated address and there will be special music.

Pursons and Hilsbeck, charged before Magistrate Turnbull at the mounted police barracks with obtaining money under false pretences, were remanded this morning to take trial before jurisdiction. The accused are alleged to have issued worthless cheques to a total value of \$800. The complainant is J. Macdonald of Smoky lake.

LATE SPORTS.

The hot sun took several million links out of the arms of Manager Deacon White's Hopfists at Diamond Park this morning and this afternoon, and the boys were so happy over Mr. Sonny Son being out in all this glory that they pranced about the mound like a trout breaking from a hook. With more than a hundred fans in the stands the chances of "future guests" to do the hot lines and once in a while make an accidentally sensationally catch, the Eskimos went through an hour's battle practice. This afternoon, they lined up in their positions; and went through fielding work of a class "to cause enthusiasm."

Manager White this morning received word that Mackin was on the way. Breun leaves Seattle this afternoon. Sorenson had not called for his transportation this morning and it was cancelled. Manager Deak fearing he is well fortified in backstops and did not care to bring Sorenson here and then turning him adrift.

THE WEATHER.

Winnipeg, April 19.—Fine and mild weather has been general over the western provinces. In Saskatchewan and Manitoba temperatures were low during the night.

Forecast:—All west, fine today and on Thursday; much the same temperatures.

Kamloops, clear. 48 32
Nelson, fair. 53 30
Edmonton, fair. 58 32
Red Deer, cloudy. 52 30
Calgary, fair. 56 30
Lethbridge, fair. 62 32
Moosehead, fair. 56 24
Macleod, cloudy. 52 31
Prince Albert, cloudy. 56 34
Saskatoon, cloudy. 55 31
Regina, clear. 58 27
Moose Jaw, clear. 50 24
Brandon, clear. 59 22
Winnipeg, clear. 55 32
Port Arthur, fair. 55 34

WARM HERE; COLD IN SOUTH

While Edmonton is enjoying summer-like weather, the south of the province is in the grip of another touch of winter, with several inches of snow.

On Monday morning south of Calgary towards Macleod, there were two inches of snow. Some other places it was deeper. The farmers are rejoicing. The snow practically means an assurance that there will be no repetition of last year's failure.

VETERANS TO MEET.

A meeting of all the veterans in the city is called for Monday evening in the first fusiliers armory when questions during the coronation celebration will be discussed. All veterans are urged to be present.

MASQUERADE BALL

The masquerade ball scheduled for tonight at McManis's hall promises to be a very enjoyable affair. Excellent music will be provided for the occasion and all who attend may be assured a pleasant evening's entertainment. The dance will be conducted under the auspices of the local Hotel and Restaurant Employees union, whose members have the reputation of being splendid hosts. While refreshments are being served, Joseph Clark will speak a few words befitting the occasion. The dancers will unmask at 10:30. All are invited, whether in costume or not.

Could Not Rest at Night.

Back Was So Weak.

Weak, lame and aching backs are the primary cause of kidney trouble. When a back aches or becomes weak it is a warning from the kidneys that everything is not right with them.

Head the warning; cure the weak, aching back and dispose of any aches of further trouble.

If you don't do this, serious complications are very apt to arise and the first thing you know you will be troubled with dropsy, Diabetes or Bright's Disease, the three most deadly forms of Kidney Trouble.

On the first sign of anything wrong with your kidneys, Doan's Kidney Pills should be taken. They go to the seat of the trouble and strengthen the kidneys, thereby strengthening the back.

Mrs. John Pulch, Parolee, Man., writes: "I have used Doan's Kidney Pills and find nothing to beat them. I could not rest at night my back was so weak. I tried everything, but could not get anything to do me any good until I was told by a friend to use Doan's Kidney Pills. I tried them and I am at the same weak woman I was before. I am very thankful to have found so speedy a cure."

Doan's Kidney Pills are 50 cents per box or 3 for \$1.25, at all dealers or mailed direct on receipt of price by The T. M. Burns Co., Limited, Toronto, Ont. If ordering direct specify "Doan's."

STAGE LINE TO BE RE-OPENED.

The stage line from Edmonton into the Peavine Prairie, 75 miles northwest, that carried hundreds of settlers to that section last year, and which will carry hundreds more this summer, will be re-opened for travel on May 1st, by Geo. Haye, who was in the city yesterday for the first time this spring, making arrangements. Geo. Haye started the stage line northwest via Estevan, last year, and handled an enormous traffic. He expects to do an even larger business this year, for the rush to his section has already commenced.

FAMILY OF THIRTEEN.

Revolutions in its proportions is the family of a German couple who registered at the immigration hall yesterday. The husband is 35, and the wife 22, and the ages of the children, of whom there are nine, range from 3 months to 19 years. In the party also was an elderly matron, and a young unmarried woman of 27. Thirteen members of the party bear the same name. Since yesterday morning there have been forty-five arrivals at the hall, the majority being immigrants from Great Britain or from continental Europe.

A special car will leave the Paddock Point at 7:20 tonight and a special from St. Paul at 7:10 in order to accommodate those wishing to attend the Oliver meeting in the Thistle Rink.
